

Learning, Reimagined.

Project Lumi — Learning Using Multiple Inferences

Your personal AI-powered learning platform designed to help you master your courses.

Why Is Studying Still So Fragmented?

Tool Overload

Switching between notes, web searches, and doubt-solving tools constantly

Concept Confusion

Struggling to understand complex theories without contextual support

Scattered Revision

Revision spread across multiple apps, calendars, and sticky notes

No Unity

No single connected learning experience tying it all together

 Students need **one connected platform**, not five disconnected tools.

One Learning Flow. Five Powerful Moments.

The complete Lumi journey — all connected, one experience.

Upload Notes

Build your knowledge base

Ask a Doubt

Instant contextual help

Explain Simply

Break down complex ideas

Generate Quiz

Test your understanding

Revision Plan

Stay organized and consistent

Turn Your Notes Into Your Own Learning Space.

Upload your study material in any format
— Lumi does the rest.

Lumi extracts and organizes your content
into a **custom knowledge base built just
for you.**

Gap Detection

Identify weak spots in real-time

Active Learning

Practice, don't just passively read

Never Wonder 'What Should I Revise?' Again.

Personalized Schedules

Lumi builds revision plans tailored to your topics and timeline

Manageable Review Paths

Topics organized into structured, bite-sized review sessions

Track Your Progress

Stay consistent and watch your revision coverage grow over time

One Product. The Complete Learning Cycle.

All five features work together seamlessly. **No switching. No fragmentation.** Just one connected learning experience that grows with you.

Learn. Understand. Practice. Revise.

With your material. With context. With purpose. With a plan.
